

Project Initialization and Planning Phase

Date	26 July 2026
Team ID	EduGenie - Google Gemini Powered Learning Assistant
Project Name	XXXXXX
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 School / college student studying independently	understand a new or difficult concept quickly	gets generic, unstructured answers from search engines	most tools aren't tailored to their learning level	most tools aren't tailored to their learning level	overwhelmed and demotivated
PS-2 Student preparing for exams	test their own understanding of a topic	has no quick way to generate practice questions from notes or a topic	manually writing quiz questions is slow and tedious	manually writing quiz questions is slow and tedious	underprepared going into the exam
PS-3 Self-learner exploring a new subject	figure out what to study next and in what order	doesn't know how to structure a learning path	curated, leveled roadmaps for niche topics are hard to find	curated, leveled roadmaps for niche topics are hard to find	directionless and slow to make progress
